CAPTAIN WISE PIONEER 1901

Capt. W. K. Wise, a pioneer of 1901, is back in his old haunts looking around and shaking hands with those who were here when Tonopah was in the rough. Naturally he finds things changed and his only fear is that he will be overshadowed by the fame of the old game into giving up his beautiful home in the Cow Bay country, 47 miles from Eugene, Ore., known as the Wise Villa.

The captain was identified with the greatest activities of the ramp and carries a solid silver badge entitling him to perpetual membership in Tonopah Lodge No. 1622, B. P. O. Elks of which he was first charter member. The membership card bears the names of George B. Thatcher, exalted ruler and W. J. Agnew, secretary.

Captain Wise specialized on building addies and built them so well that he was surprised to learn that one which he constructed for the Lothrop-Davis company is still doing service. He built the first good house in Goldfield when the Lothrop erected a grocery at Main and Ramsey streets. Later he organized the Nevada Coal and Lumber company with T. L. Dodge, president, with branch yards in Goldfield, Bullfrog, Hawthorne and Manhattan.

Captain Wise left here around 1912 and has been enjoying the peaceful life on the line of the Willamette Pacific railroad until he could no longer resist the call to come back. Captain Wise is one of the most famous decorators of the west, and when his profession became known in the early days of the camp he was in demand for everything that was going, dating from the first bell of the Elks to the last Fourth of July before he left camp.

CALDWELL GIVES CASH BOND
W. J. Caldwell, who was held to the district court for trial on the charge of swindling through a card game, was released late Saturday night on furnishing a \$1500 cash bond. His partner remains in jail.

It is proposed to maintain Mammoth Cave, in Kentucky, as one of the greatest natural wonders in the world. It will come in handy for the Tonopahs to hide in the first week in November, 1920.

SAVING FINES FOR THE MILL

The Sunnyside tunnel at Round Mountain, which is a crosscut being extended to intersect the vein opened for a length of 700 feet on the surface by leasers, is now in over 100 feet and all of the fines from this tunnel are being saved for ore. This is an unexpected development as leasers were not expected until the tunnel had reached a point 100 or 400 feet from its portal.

No 461 crosscut now being extended south from the 450-foot level to open certain veins exposed on the surface by hydraulic operations, has been extended 85 feet and all of the fines from this crosscut have been saved for ore. Leasers are maintaining a production from the side mine of from \$15,000 to \$30,000 a month, and while the hot weather has greatly depleted the water supply, limited hydraulic operations are being carried on in material average better than \$150 a yard.

Just as He Dictated It.
"See here, Miss Pounders," said Mr. Gruffington. "Why have you put exclamation marks after every sentence in this letter?" "You dictated it to me in expositive tones," replied the stenographer, quietly. — Birmingham Age-Herald.

Rank Discrimination.
Under a New York ordinance a scissors-grinder is not allowed to blow his horn. If he wishes to blow his horn he must abandon his culling and go upon the stage or into politics or under a license. — Commercial Appeal.

One Spot Was All Right.
Robert was promised a nickel by his aunt if he kept clean when he went out to play, as company was expected and they wanted him to look his best. The tiny chap, however, got into a coal pile and was a sight to behold. His aunt said such a dirty boy would not get the nickel. Wistfully pulling out the lining of his wee pocket he said: "My pocket is clean as a snow." — Exchange.

See as Good Example.
If you would add to your wealth and contribute a delicious, beautiful product to the world of consumers, consider the busy bee.—Exchange.
